

## BIG 6 AND FORTRESS LOCKING BAR

**BIG 6 PADLOCK**

The **ERA Big 6 Heavy Duty Padlock** incorporates 6 levers. The cast bolt is housed in a laminated steel case. There are over 1000 key combinations with master keying available. When used with the ERA Fortress Locking Bar, doors up to 70mm thick can be secured.

The **Fortress Locking Bar** has a drill proof hinge-pin which prevents hacksawing, whilst the hardened forged-steel staple, concealed by the hasp, prevents hacksawing and wrenching.

The bars are manufactured from heavy malleable iron castings for maximum strength. All fixing screws are concealed.

# CLOSE SHACKLE PADLOCK & NARROW STYLE LOCKING BAR

The **ERA Close Shackle Padlock** has a 5 brass lever locking mechanism with a close hardened steel shackle. Master keying of this product is available. Doors up to 63mm thick can be secured when used in conjunction with the **ERA Narrow Style Security Locking Bar**. This locking bar is manufactured from heavy malleable iron castings for maximum strength. The hardened forged-steel hasp conceals the staple to prevent hacksawing and forced wrenching.

**BLOCK  
LOCK**

## BLOCK LOCK

The ERA Block Lock is the innovative solution for additional security to safeguard van contents. The Block Lock is easily portable, it can be used on vans, sheds and caravans and no drilling is required. The Block Lock can be fitted in minutes.

One half of the lock, the bracket, is attached to one of the rear doors. The doors are then closed and the locking mechanism is attached to the bracket so that the doors are prevented from opening. The lock uses an oval single cylinder and is opened by key.
